LeetCode: <https://leetcode.com/u/ananya36/>

Education

Jain (Deemed-to-be) University, Bengaluru
B.Tech in Computer Science- AI

Expected Graduation: May 2027
GPA: 8.9/10

Experience

AI Voice Agent Developer – Anyra (30-Day Murf AI Challenge)

August 2025

[Live Link](#)

- Architected and deployed a real-time AI Voice Agent using **FastAPI (WebSockets)** backend and **Tailwind CSS + JavaScript** frontend; integrated **AssemblyAI (STT)**, **Gemini LLM**, and **Murf AI (TTS)** to enable low-latency bidirectional voice interaction, session memory, persona-based responses, and animated avatar rendering; production deployment on **Render**.
- Engineered scalable real-time audio streaming pipeline with asynchronous processing and stateful conversation management; achieved consistent live voice round-trip execution, open-source recognition (5+ GitHub stars), and engagement from industry professionals across LinkedIn.

AI Developer – TranNexa (AI-Powered Multi-Language Translator)

March 2025

[Live Link](#)

- Engineered a real-time bi-directional AI translator using **Python**, **Speech-to-Text (STT)**, **Neural Machine Translation (NMT)**, and **Text-to-Speech (TTS)** pipelines; supported **10+ languages** with **<2s latency**, **95%+ translation accuracy**, and reduced manual translation effort by **90%** in controlled benchmarks.
- Designed scalable, concurrent architecture capable of handling **1,000+ active sessions** using optimized async processing; recognized with **Gold Medal at INNOVERSE'25 (National Technical Symposium)** and selected for presentation at **IEEE ICCNC 2025**.

Skills

- Programming:** Python, Java, Javascript, HTML, CSS, Tailwind CSS, JavaScript, React.js, Node.js, MySQL, MongoDB
- Tools:** VS Code, Colab, Git/GitHub
- UI/UX:** Canva, Figma
- GenAI & ML:** LLMs, Prompt Engineering, NLP, STT/TTS, RAG, Transformers
- Concepts:** UI/UX Design, OOP, Computer Networks, DevOps basics
- Soft Skills:** Problem-solving, communication, time management, adaptability, stakeholder collaboration, continuous learning, cooperative teamwork, creative thinking

Projects

1. Ratna Jewellery – Modern E-Commerce Platform [Live Link](#)

- Immersive Shopping: Building a full-stack jewellery e-commerce platform with real-time inventory management, AR-based virtual try-on (planned), and secure payment gateways.
- Optimized for Scale: Designed to serve 1,000+ daily shoppers with personalized recommendations and wish-list features.
- Elegant & Mobile-First UI: Tailored for 90% faster page load and seamless checkout flow on all devices.

2. GlobeVista – Experience Reality on Your Device [Live Link](#)

- Virtual Tourism Revolution: Crafting an interactive travel platform that lets users explore 15+ iconic destinations via 3D tours, AR/VR support, and interactive maps.
- Interest-Grade UI/UX: Built in Figma with micro-animations and ambient soundscapes to extend average session time by 40%+ in prototypes.
- Personalized Recommendations: Integrating Mapbox API and geolocation to offer custom travel itineraries and multilingual guides.

Activities and Achievements

- Gold Medalist – TranNexa: Won 1st Prize for building an award-winning multilingual AI translator; recognized nationally and showcased at leading conferences and innovation platforms.
- Team Innovator – Sathyabama TechnoSummit SDG-IC 2025: Collaborated across departments with civil engineering students to develop a problem-solving solution and represented the team at a major national tech summit.
- Academic Excellence: Maintained a 8.9 CGPA, consistently ranking among top performers through disciplined learning and strong conceptual clarity.
